

Recipient User Guide

1. To begin, visit <https://sharethanks.org> to download the mobile app for either iPhone or Android or search for “ShareThanks” in the Google Play or App Store.

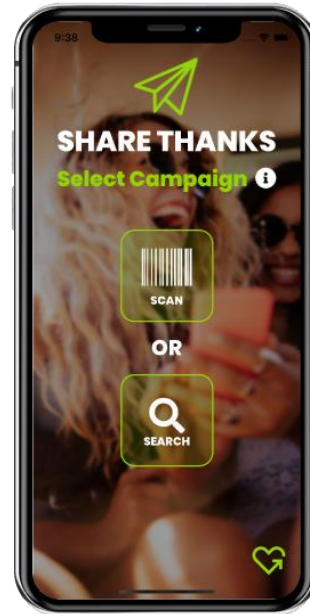

2. **Open** the ShareThanks mobile application from your Home Screen.

3. Select **Share Thanks**.

4. Choose to **Scan** barcode/QR Code or **Search** for a campaign.

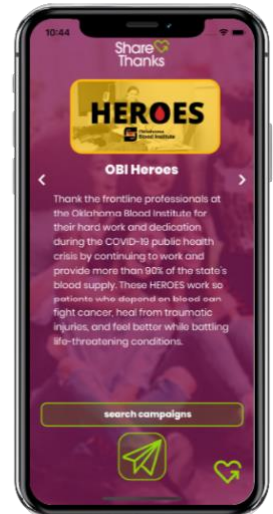

5. Choose to **Scan** the barcode/QR Code provided to you or **Search** for a campaign. The **white arrows** by the campaign name indicate there are multiple search results. **SWIPE** (left or right) through the results until you find the campaign.

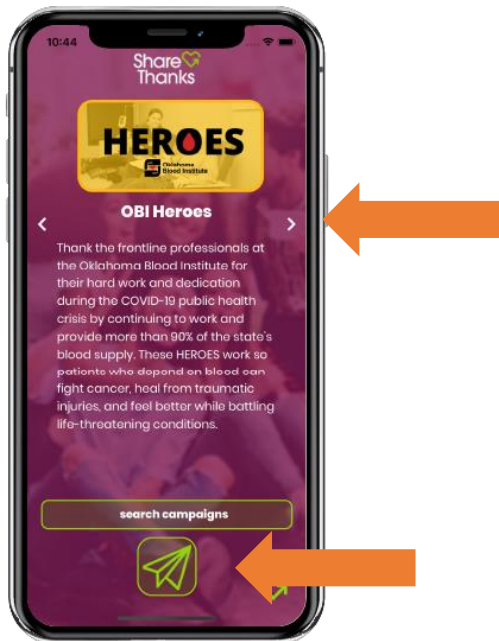

- NOTE: You **must** scan a barcode/QR Code for all Heart-to-Heart Campaigns.

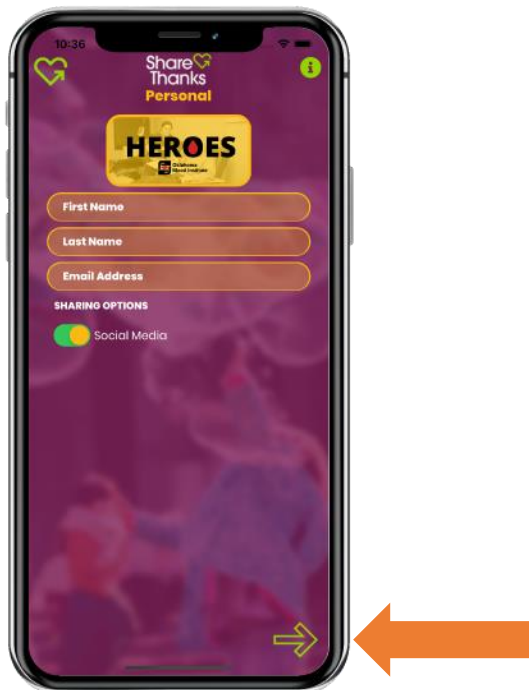

OR

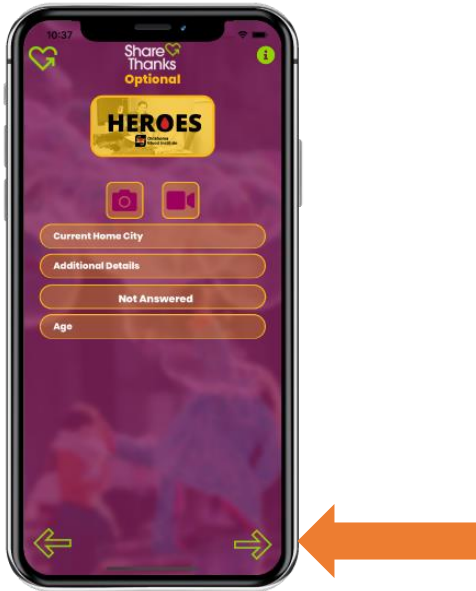

6. After you navigate to the correct **Campaign**, select the **Share Thanks** icon to begin.

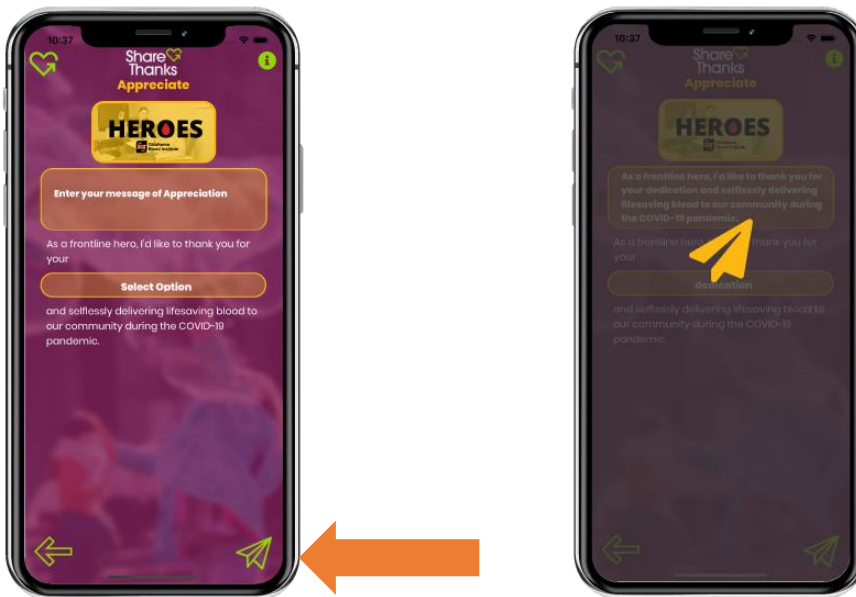

7. In the **Personal** section, enter your **First Name**, **Last Name**, and **Email** and choose to opt-in to the **Share Options**, such as receiving updates or sharing your anonymous message on social media. Click the **arrow** to continue.

8. In the **Optional** section, personalize your message by choosing to share a photo, video or additional details. Click the **arrow** to continue.

9. In the **Message** section, type a unique message in the box, or if you need a little inspiration, select the dropdown menu to use a templated message.

- Click **Share Thanks icon** when your message is complete.

10. Your message has been received when you reach the **Thank You** screen. Choose to answer **Yes** or **No** to the additional question or **Exit** the app.
